

# Android Icons Guide

Icon Mipmap	Icon Size ( w x h )	Size x1.5	Size x2	Size x3
<i>mdpi</i>	48	72	96	144
<i>hdpi</i>	72	108	144	216
<i>xhdpi</i>	96	144	192	288
<i>xxhdpi</i>	144	216	288	432
<i>xxxhdpi</i>	192	288	384	576

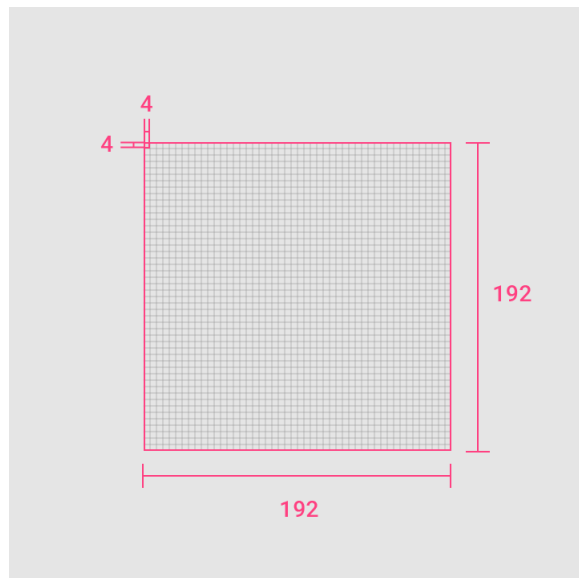

## Material Icon Sizes

Url: <https://material.io/design/iconography/product-icons.html>

When creating an icon, view and edit it at 400% (192 x 192 dp), which will display edges at 4dp. By maintaining this ratio, any changes to the original will be scaled up or down proportionally, which preserves sharp edges and correct alignment when the scale is returned to 100% (48dp).
